Jiri Jiri - Miss U

All I do is miss you
All I do is miss you
All I do is miss you
All I do is miss you

I never met anyone like this before
Baby I am yours that's for sure
But lately you don't call me any more
Oh you make me feel so insecure

All I do is miss you
All I do is miss you
All I do is miss you
All I do is miss you

I never met anyone like you before
My heart belongs to you that's for sure
But lately I don't catch you anymore
I never fell in love like this before

All I do is miss you
All I do is miss you
All I do is miss you
All I do is miss you
