

## **PLANET FUNK – THE WORLD’S END**

Sleeping in the sunshine  
Walking in the rain  
One day you will be lonely  
The glory and the fame  
Wont mean a thing when everything is just a masquerade

So step outside the shadow  
Whisper in my ear  
Show me what you're made of  
The golden atmosphere  
Implodes within  
When everything is just a masquerade

If the world ends here, the world ends now  
Looking back we got through somehow  
There's so much more that we don't know  
So much more we can explore  
If we only let ourselves go

Remember who's your friend  
You've seen it on a post card  
The place you won't forget  
It all sinks in  
Because everything is just a masquerade

So step into the spotlight  
Forget the barricades  
All the things you got right  
They turn around your fate  
Forget your sins  
Because everything is just a masquerade

If the world ends here, the world ends now  
looking back we got through somehow  
There so much more that we don't know  
So much more we can explore  
If we only let ourselves go

If we just let go  
Can you just let go
