

THE LOSS AND THE GAIN

Where did you go
I'm calling your name
Within
As my mourning goes
It's you I've lost
or is it me?

Where did you go
The city still speaks
Of you
Wherever I go
I see history
Of previous care

where did you go
the night and the day
The loss and the gain

Where did you go
We fought and we lost
I miss you the most

Where did you go
A beautiful friend
Is gone
no chances to kiss goodbye
a dull so long
the telephone

where did you go
I wish I will find
A way
Confusion is here to stay
Yet hope is real of you again
